## Included in this report

---

This report can be generated with filters applied to operating system platforms, components, and/or software capabilities. This section reflects how the report was filtered when it was generated.

### Legend

- The information about this item is included in this report.
  - The information about this item is not included in the report filter.
- 

### Platforms

- Windows

### Component list

#### Desktop

- Aurora starter store (user interface)
- Development environment
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Capabilities

#### Prerequisites

- Application Servers
- Databases
- Java
- Web Browsers

#### Related Software

- Application Servers
- Development Tools
- Integrated Application Platform
- LDAP Servers
- Message Oriented Middleware
- Reporting and Analysis

# Operating Systems

The Operating systems section specifies the operating systems that WebSphere Commerce Developer Enterprise 9.0 supports, organized by operating system family.

## Operating system families

[Windows](#)

### Component support

- Full
- Partial
- None

## Windows

### Summary

Operating system	Operating system minimum	Hardware	Bitness	Components 	Notes?
<a href="#">Windows 10 Enterprise</a>	Base	x86-64	64-Exploit	<input checked="" type="radio"/>	No
<a href="#">Windows 10 Pro</a>	Base	x86-64	64-Exploit	<input checked="" type="radio"/>	No
<a href="#">Windows 7 Enterprise</a>	Service Pack 1	x86-64	64-Exploit	<input checked="" type="radio"/>	No
<a href="#">Windows 7 Professional</a>	Service Pack 1	x86-64	64-Exploit	<input checked="" type="radio"/>	No

## Windows 10 Enterprise x86-64

**Legend:** Supported Not supported

### Component

#### Desktop

- Aurora starter store (user interface)
- Development environment
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Operating System Technology Levels, Current and Future [...](#)

Deployment unit	Component	Bitness	Base	Annivers: Update	Creators Update	Fall Creators Update	<a href="#">...</a>
Desktop	Aurora starter store (user interface)	64-Exploit					
	Development environment	64-Exploit					
	Management Center for WebSphere Commerce	64-Exploit					
	WebSphere Commerce Accelerator, Administration Console and Organization Administration Console	64-Exploit					

## Windows 10 Pro x86-64

**Legend:** Supported Not supported

### Component

#### Desktop

- Aurora starter store (user interface)
- Development environment
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Operating System Technology Levels, Current and Future [...](#)

Deployment unit	Component	Bitness	Base	Annivers: Update	Creators Update	Fall Creators Update	<a href="#">...</a>
Desktop	Aurora starter store (user interface)	64-Exploit					
	Development environment	64-Exploit					
	Management Center for WebSphere Commerce	64-Exploit					
	WebSphere Commerce Accelerator, Administration Console and Organization Administration Console	64-Exploit					

## Windows 7 Enterprise x86-64

**Legend:** Supported Not supported

### Component

#### Desktop

- Aurora starter store (user interface)
- Development environment
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Operating System Technology Levels, Current and Future [...](#)

Deployment unit	Component	Bitness	Base	Service Pack 1	<a href="#">...</a>
Desktop	Aurora starter store (user interface)	64-Exploit			
	Development environment	64-Exploit			
	Management Center for WebSphere Commerce	64-Exploit			
	WebSphere Commerce Accelerator, Administration Console and Organization Administration Console	64-Exploit			

## Windows 7 Professional x86-64

**Legend:** Supported Not supported

### Component

#### Desktop

- Aurora starter store (user interface)
- Development environment
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Operating System Technology Levels, Current and Future [...](#)

Deployment unit	Component	Bitness	Base	Service Pack 1	<a href="#">...</a>
Desktop	Aurora starter store (user interface)	64-Exploit			
	Development environment	64-Exploit			
	Management Center for WebSphere Commerce	64-Exploit			
	WebSphere Commerce Accelerator, Administration Console and Organization Administration Console	64-Exploit			

# Hypervisors

The Hypervisors section specifies the hypervisors that WebSphere Commerce Developer Enterprise 9.0 support.

### Component support

- Full
- Partial
- None

## Installable software

Operating System Families

[Windows](#)

## Windows

### Summary

Hypervisor	Components 	Guest operating system restriction?	Notes?
<a href="#">VMware ESXi 6.5</a>	<input checked="" type="radio"/>	Yes	No

## VMware ESXi 6.5

**Legend:** Supported Not supported

### Components

#### Desktop

- Development environment
- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

Product Support for the Hypervisor Maintenance Levels, Current and Future [...](#)

Deployment unit	Component	6.5	<a href="#">...</a>
Desktop	Development environment		

### Supported Guest Operating Systems

Components	Supported operating systems
<p><i>All components that this hypervisor supports</i></p> <p><b>Desktop</b></p> <ul style="list-style-type: none"> <li>• Development environment</li> </ul>	<p><i>All supported operating systems</i></p> <ul style="list-style-type: none"> <li>• Windows 7 Professional x86-64</li> <li>• Windows 7 Enterprise x86-64</li> <li>• Windows 10 Pro x86-64</li> <li>• Windows 10 Enterprise x86-64</li> </ul>

# Prerequisites

The Prerequisites section specifies the capabilities that WebSphere Commerce Developer Enterprise 9.0 requires, and the prerequisite products that can be used to fulfill those capabilities.

### Component Support

- Full
- Partial
- None

### Capabilities

[Application Servers](#)   [Databases](#)   [Java](#)   [Web Browsers](#)

## Application Servers

### Summary

Prerequisite	Version	Prerequisite minimum	Components 	Operating system restrictions?	Notes?
<a href="#">Rational Application Developer for WebSphere Software</a>	9.6	9.6	<input checked="" type="radio"/>	No	No
<a href="#">WebSphere Application Server</a>	9.0	9.0.0.5	<input checked="" type="radio"/>	No	Yes
<a href="#">WebSphere Liberty</a>	17.0.0.2	17.0.0.2	<input checked="" type="radio"/>	No	No

## Rational Application Developer for WebSphere Software 9.6

**Legend:** Supported Not supported

---

### Components

#### Desktop

- Development environment
- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

Product Support for the Prerequisite Maintenance Levels, Current and Future [-->](#)

Deployment unit	Component	9.6	<a href="#">--&gt;</a>
Desktop	Development environment		

## WebSphere Application Server 9.0

**Legend:** Supported Not supported

### Components

#### Desktop

- Development environment
- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future [-->](#)

Deployment unit	Component	9.0	9.0.0.1	9.0.0.2	9.0.0.3	9.0.0.4	9.0.0.5	9.0.0.6	<a href="#">--&gt;</a>
Desktop	Development environment						 (1)	 (1)	

## WebSphere Liberty 17.0.0.2

**Legend:** Supported Not supported

---

### Components

#### Desktop

- Development environment
- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

Product Support for the Prerequisite Maintenance Levels, Current and Future [-->](#)

Deployment unit	Component	17.0.0.2	<a href="#">--&gt;</a>
Desktop	Development environment		

## Application Servers Notes

1. WebSphere Application Server - Base 9.0 is bundled together, need to upgrade to 9.0.0.5.

## Databases

### Summary

Prerequisite	Version	Prerequisite minimum	Components 	Operating system restrictions?	Notes?
DB2 Advanced Workgroup Server Edition	11.1.1.1	11.1.2.2		No	Yes

## DB2 Advanced Workgroup Server Edition 11.1.1.1

**Legend:** Supported Not supported

### Components

#### Desktop

- Development environment
- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future [-->](#)

Deployment unit	Component	11.1.1.1	11.1.2.2	11.1.3.3	<a href="#">--&gt;</a>
Desktop	Development environment		 (1)	 (1)	

## Databases Notes

1. DB2 Advanced Workgroup Server Edition 11.1.0 is bundled together, and need to upgrade to version 11.1.2.2

## Java

### Summary

Prerequisite	Version	Prerequisite minimum	Components 	Operating system restrictions?	Notes?
IBM Runtime Environment, Java Technology Edition	8	8		No	Yes

## IBM Runtime Environment, Java Technology Edition 8

**Legend:** Supported Not supported

### Components

#### Desktop

- Development environment
- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

Product Support for the Prerequisite Maintenance Levels, Current and Future [-->](#)

Deployment unit	Component	8	<a href="#">--&gt;</a>
Desktop	Development environment	 (1)	

## Java Notes

1. IBM Java SDK/JRE 8 comes with IBM WebSphere Application Server V9.0.

## Web Browsers

### Summary

Prerequisite	Version	Prerequisite minimum	Components 	Operating system restrictions?	Notes?
Apple Safari	9 and future versions, releases and fix packs	9		No	No
Google Chrome	61 and future versions, releases and fix packs	61		No	No
Microsoft Edge	40 and future versions, releases and fix packs	40		No	No
Microsoft Internet Explorer	11 and future versions, releases and fix packs	11		No	Yes
Mozilla Firefox	55 and future versions, releases and fix packs	55		No	No
Mozilla Firefox ESR	52 and future versions, releases	52		No	No

Prerequisite	Version	Prerequisite minimum	Components 	Operating system restrictions?	Notes?
	and fix packs				

## Apple Safari 9 and Future Versions, Releases and Fix Packs

**Legend:**  Supported  Not supported

---

### Components

#### Desktop

-  Aurora starter store (user interface)
-  Development environment
-  Management Center for WebSphere Commerce
-  WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	9	Future Versions, Releases	Future Fix Packs
Desktop	Aurora starter store (user interface)			

## Google Chrome 61 and Future Versions, Releases and Fix Packs

**Legend:**  Supported  Not supported

### Components

#### Desktop

-  Aurora starter store (user interface)
-  Management Center for WebSphere Commerce
-  Development environment
-  WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	61	Future Versions, Releases	Future Fix Packs
Desktop	Aurora starter store (user interface)			
	Management Center for WebSphere Commerce			

## Microsoft Edge 40 and Future Versions, Releases and Fix Packs

**Legend:** Supported Not supported

### Components

#### Desktop

- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- Development environment
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	40	Future Versions, Releases	Future Fix Packs
Desktop	Aurora starter store (user interface)			
	Management Center for WebSphere Commerce			

## Microsoft Internet Explorer 11 and Future Versions, Releases and Fix Packs

**Legend:** Supported Not supported

### Components

#### Desktop

- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console
- Development environment

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	11	Future Versions, Releases	Future Fix Packs
Desktop	Aurora starter store (user interface)	 (1)		
	Management Center for WebSphere Commerce	 (1)		
	WebSphere Commerce Accelerator, Administration Console and Organization Administration Console			

## Mozilla Firefox 55 and Future Versions, Releases and Fix Packs

**Legend:**  Supported  Not supported

### Components

#### Desktop

-  Aurora starter store (user interface)
-  Management Center for WebSphere Commerce
-  Development environment
-  WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	55	Future Versions, Releases	Future Fix Packs
Desktop	Aurora starter store (user interface)			
	Management Center for WebSphere Commerce			

## Mozilla Firefox ESR 52 and Future Versions, Releases and Fix Packs

**Legend:** Supported Not supported

### Components

#### Desktop

- Aurora starter store (user interface)
- Management Center for WebSphere Commerce
- Development environment
- WebSphere Commerce Accelerator, Administration Console and Organization Administration Console

### Product Support for the Prerequisite Maintenance Levels, Current and Future

Deployment unit	Component	52	Future Versions, Releases	Future Fix Packs
Desktop	Aurora starter store (user interface)			
	Management Center for WebSphere Commerce			

## Web Browsers Notes

1. WebSphere Commerce Accelerator, Administration Console, and Organization Administration Console are compatible with Internet Explorer 11, only when Internet Explorer is run in Compatibility Mode.

## Supported software

The Supported software section specifies the additional software that WebSphere Commerce Developer Enterprise 9.0 supports.

### Capabilities

[Application Servers](#)   [Development Tools](#)   [Integrated Application Platform](#)  
[LDAP Servers](#)   [Message Oriented Middleware](#)   [Reporting and Analysis](#)

### Component Support

- Full
- Partial
- None

## Application Servers

# Hardware

WebSphere Commerce Developer Enterprise 9.0 requires the following hardware, organized by type of hardware, deployment units, or components.

## Installable software

### Operating System Families

[Windows](#)

## Windows

Hardware	Components	Requirement	Applicable operating systems
Disk Space	<b>Desktop</b> <ul style="list-style-type: none"><li>• Aurora starter store (user interface)</li><li>• Development environment</li><li>• Management Center for WebSphere Commerce</li><li>• WebSphere Commerce Accelerator, Administration Console and Organization Administration Console</li></ul>	Diskspace - 50 GB	All supported Windows operating systems
Display	<b>Desktop</b>	Display- Graphics capable monitor with a color depth of at least 256 colors	All supported Windows operating systems

Hardware	Components	Requirement	Applicable operating systems
	<ul style="list-style-type: none"><li>• Aurora starter store (user interface)</li><li>• Development environment</li><li>• Management Center for WebSphere Commerce</li><li>• WebSphere Commerce Accelerator, Administration Console and Organization Administration Console</li></ul>		
Memory	<b>Desktop</b> <ul style="list-style-type: none"><li>• Aurora starter store (user interface)</li><li>• Development environment</li><li>• Management Center for WebSphere Commerce</li><li>• WebSphere Commerce Accelerator, Administration Console and Organization Administration Console</li></ul>	Memory - 4 GB	All supported Windows operating systems
Mice and pointing devices	<b>Desktop</b> <ul style="list-style-type: none"><li>• Aurora starter store (user interface)</li><li>• Development environment</li></ul>	Pointer Device - Mouse or other pointing device(optional)	All supported Windows operating systems

Hardware	Components	Requirement	Applicable operating systems
	<ul style="list-style-type: none"><li>• Management Center for WebSphere Commerce</li><li>• WebSphere Commerce Accelerator, Administration Console and Organization Administration Console</li></ul>		
Network: adapters, drivers, protocols	<b>Desktop</b> <ul style="list-style-type: none"><li>• Aurora starter store (user interface)</li><li>• Development environment</li><li>• Management Center for WebSphere Commerce</li><li>• WebSphere Commerce Accelerator, Administration Console and Organization Administration Console</li></ul>	Network - LAN Adapter that supports TCP/IP	All supported Windows operating systems
Processor	<b>Desktop</b> <ul style="list-style-type: none"><li>• Aurora starter store (user interface)</li><li>• Development environment</li><li>• Management Center for WebSphere Commerce</li><li>• WebSphere Commerce Accelerator,</li></ul>	Processor - 64 Bit Processor	All supported Windows operating systems

Hardware	Components	Requirement	Applicable operating systems
	Administration Console and Organization Administration Console		

## Packaging list

---

WebSphere Commerce Developer Enterprise 9.0 includes the following products:

---

### Co-packaged software

Product name	Capability	Applicable Operating System Families	Notes
DB2 Advanced Workgroup Server Edition 11.1.0	Not specified	Windows	(1)
Rational Application Developer for WebSphere Software 9.6	Development Tools	Windows	No
WebSphere Application Server 9.0	Application Servers	Windows	No
WebSphere Liberty 17.0.0.2	Application Servers	Windows	No

### Co-installed software

No co-installed software products specified.

## Co-packaged Notes

1. DB2 Advanced Workgroup Server Edition 11.1.0 is packaged with WebSphere Commerce. It requires to be upgraded to 11.1.2.2.

# Glossary

---

**Bitness**

Compatibility of the product with the bit version support that is provided by an operating system. Different parts of a product might run on the same operating system but support different application bitness. For example, one part of the product might run only in 32-bit mode, whereas another might support 64-bit tolerate mode.

**31:** The product or part of the product runs as a 31-bit application in a 31-bit operating environment.

**32:** The product or part of the product runs as a 32-bit application in a 32-bit operating environment.

**64-tolerate:** The product or part of the product runs as a 32-bit application in a 64-bit operating environment.

**64-exploit:** The product or part of the product runs natively as a 64-bit application in a 64-bit operating environment.

---

**Co-packaged**

Additional products that are included in the product package.

---

**Co-installed**

Additional products that are included in the product package and installed when the product is installed.

---

**Deployment unit**

**Deployment Structure** identifies pieces of a product that can be independently deployed onto one or more machines in a distributed infrastructure.

- The top level of the deployment structure consists of one or more deployment units. There are four possible deployment units that a product might support: Desktop, Server, Agent or client, Mobile.
- Deployment units may be further divided into deployable **components**

**Desktop** deployment unit: Part of the deployment structure intended for use by a single user, typically installed on the user desktops. Examples of desktop deployment units include development tools, administrative tools, stand-alone business applications.

**Server** deployment unit: Part of the deployment structure that can provide services to multiple clients, providing the server in a client-server architecture. Examples of server deployment units include application servers, management servers, database servers and server-based business applications.

**Agent or client** deployment unit: Part of the deployment structure that allows remote connection between software. Examples of agent or client deployment

units include agents in management system that are installed in the same tier as the managed resources, a remote application, or database clients that are installed with the software accessing the remote services.

**Mobile** deployment unit: Part of the deployment structure intended for use by a single user, typically installed on a mobile device. An example of a mobile deployment unit is a mobile application.

---

<b>Hypervisor</b>	A virtual machine in which a product can run on a guest operating system.
<b>Limited operating system support</b>	By default, the supported guest operating systems for a product and a hypervisor are the operating systems that are supported by both the product and the hypervisor. If a product restricts support to a subset of these operating systems, this restriction will be indicated by specifying that there is Limited Operating System Support.
<b>Operating system minimum</b>	The minimum operating system maintenance level that is required to run on the product.
<b>Prerequisite minimum</b>	The minimum maintenance level that is required for the prerequisite to work with the product.
<b>Product minimum</b>	The minimum maintenance level that is required for the product to run on the operating system, on an hypervisor, or work with a prerequisite product or supported software.
<b>Supported software minimum</b>	The minimum maintenance level that is required for the supported software to work with the product.
<b>Long Term Support Release</b>	A Long Term Support Release is a recommended product level for which support, including defect and security updates, will be provided over a specified period of time.
<b>Continuous Delivery Product</b>	A Continuous Delivery Product delivers new function to clients more frequently.
<b>Continuous Delivery Product - Long Term Support Release</b>	A Continuous Delivery Product delivers new function to clients more frequently. Since frequent releases may not be suitable for all client environments, Long Term Support Releases provide a package that will be supported for a longer period of time.
